## TERMS OF SALE

All coins and bills guaranteed genuine.

New bidders or customers sending in bids for the first time must positively give first class reference, bank reference preferably, or else send a deposit of at least 25 % of the total amount of bids. Otherwise, their bids will not be accepted; application of such deposit will be made upon successful bids; the seller reserves the right to demand payment upon successful bids before delivery in his sole discretion. To those known to me who have established credit, a reference or deposit is not necessary and purchases will be sent out promptly after the sale. In appreciation of this courtesy the purchaser remits promptly.

Collectors who make unlimited bids will get the lots at 5 % above the highest actual bid entered.

The terms are prompt cash settlement after sale, and no time given. Collectors who are not certain that they can pay promptly are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.

Remit by money order, draft, check, or in any way most convenient. Stamps accepted for accounts that are below one dollar only.

Coins will be bought below your bids where other offers permit, as this is competitive bidding, executed in good faith.

The usual charge of 5 % will be made for executing your bids, and for packing and sending out material. No charge made on anything not actually purchased. Postage and express is paid by the purchaser.

Receipted bills are not sent out after your remittance as this is unnecessary. Your check, draft or money order itself is a receipt. However, if a 3-cent stamp is enclosed we will send receipt.

Be certain that you bid on the lot you wish to buy. We will correct errors and adjust claims, but you should not expect us to pay for your mistakes. Be careful in making your bids. Be sure that you bid on the lot you wish to buy, and at so much per piece.

Bids must reach me by the morning of the sale. Mail them in time so as to avoid disappointment. At each sale some bids arrive too late to be executed.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same, and there are no higher bids, the first received gets the lot. When two or more unlimited bids on a certain lot are sent, the first one received gets the lot at a 5 % advance over the highest actual bid.

Between the seller and buyer, my position is describing the condition of coins and bills has been neutral. My classifications are generally considered to be conservative, by the collecting public.

It is easy to bid by mail. If you do not know how much to bid on any items, write me giving numbers in catalog and I shall be glad to inform you as to values. It is useless and a waste of time to make low bids that have no chance of success. I sincerely hope that each collector acquires some nice lots from this sale that give him a real thrill and joy of satisfaction.

Please bid by the piece unless stated to bid for the lot. Thus, if there are 12 pieces in a lot and you wish to pay \$6 for the lot, then bid 50c. At each sale someone bids by the lot. Don't do this—bid by the piece.

NOTE—A printed list of all the prices realized at this sale will be sent for fifty cents (50c). Send coin or stamps with your bids so as to reserve a price list, or if you prefer, we will add the cost to your bill of items purchased for you at this sale. Keep posted on coin values as they are today, and order a price list in advance of the sale. After the sale they cost \$1. Before, they are 50 cents.

## ANCIENT GREEK AND ROMAN COINS

A high-grade collection of this most interesting and historical series, from the same great collection as those in the last two sales. In Europe where coin collecting is of long standing, and the general public knows what a numismatist is, more than half the collectors own a collection of ancient and classical coins. In this country learned collectors are awakening to the interest in them, and the reasonableness at which they can be purchased. European prices are much higher. In order to assist bidders at arriving at a fair value, we have given estimates of the value of each lot in this country, or about what to bid for a good chance of success.

## A LARGE FIND OF OLD SIAM SILVER BULLET MONEY

Many years ago the United States minister to Siam purchased this collection of Siamese Bullet Money from an aged native lady who lived far inland. The minister, who was a collector of Siamese silver, made the difficult journey especially to secure this lot. Recently his niece, heiress to the collection, brought it in to me. These curiously-shaped spherical heavy lumpy silver coins usually bear two counterstamps, of which there are quite a variety. The smaller sizes have one counterstamp. They were issued and in use before 1861. Every general collection of coins ought to contain a few pieces, as they always interest your visitors inspecting your collection.

## A TRIP ABROAD

(Continued from 123rd catalog)

En route via train from Vienna to quaint old Salzburg reading a Vienna paper, the only news item from America was an account of the continued drought (1936). We got quite a thrill out of this as it rained all day and that night too after our arrival in Salzburg. The famous annual musical festival was in progress and every seat was occupied, and all standing room, despite the downpour. At this musical festival the works of Mozart and Haydn and other classic composers are rendered with scrupulous exactness. These programs, a healthy climate, and the delightful scenic surroundings make this city a popular summer resort. Tourists bring a lot of business to town. There are beautiful public baths.

Salzburg, so-called because of the local abundance of salt, is charmingly situated amid mountainous scenery in the Salzach River valley. Around it are the wooded slopes of the Austrian Alps. The modern city of 40,000 inhabitants grew up around the monastery and bishopric founded here 500-700 A.D. by St. Rupert of Worms. The old crowns and other coins often bear a likeness of this ancient Saint who preached the first Christianity in the district.

The section known as the old town has narrow streets, flat-roofed houses, beautiful squares and fountains, interesting buildings of marble after the Italian, 15th century Town Hall, and about 25 churches. Of these, the 17th century Cathedral is one of the largest and most perfect specimens of the Renaissance style and is on the model of St. Peter's of Rome. Though situated in the old town it is bounded on three sides by open squares, which permit its beauties to be appreciated.

Here was born the great Mozart. We found his house a museum today of great interest, where can be seen many of his original manuscripts of famous compositions, as well as some of his furniture and personal effects.

Museum Carolino-Augustum contains a valuable collection of antiquities. In the ancient cemetery of St. Peter the vaults are hewn in rocky clefts. The ancient fortress, Hohen-Salzburg citadel on a mountain overlooking the city is truly picturesque. A rural sight-seeing trip by bus took us to old hunters' castle built in 1613 by an old archbishop. In this sportsman's paradise, we see artificial rain and singing birds, quite a novelty but amusing when you stand in a day of downpouring rain from God's own clouds to witness it.

Industries include brewing, bookbinding, marble wares, and the manufacture of musical instruments. Browsing about the quaint shops, we found plenty of old Salzburg crowns et cetera, but they are more valued there, and it is difficult to purchase many at satisfactory prices. One old innkeeper keeps his collection of coins in an old shoe, a new idea for a connoisseur's coin cabinet. Bells and chimes ring from some of the old churches at the end of the day's work and in one can be heard an organ recital. Tonight let us count and list our Austrian paper and silver shillings (20c) and our groschen small change, our various other moneys and travelers' checks, for tomorrow we will journey to Dresden, and at the German border we again will give a strict account of our bodily wealth.
